

5th Grade Ceiling Tile Portraits ~ Robert Frost Elementary School

Hyla Skudder ~ Artist-in-Residence ~ 2004 - 2006

Over a two year period, each 5th grade student at the school created a self-portrait on a ceiling tile. The tiles were installed throughout the school.

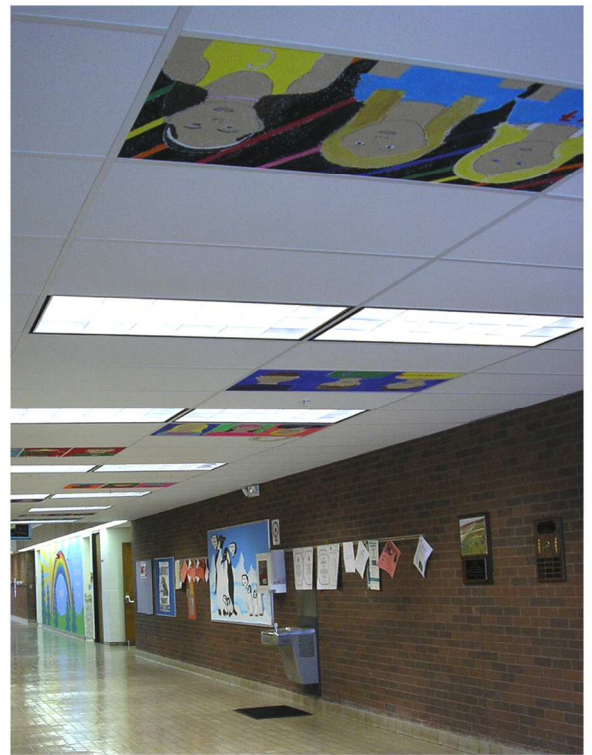

The art teacher worked with the students for several weeks before hand on the self-portrait concept, and had them do a preliminary sketch. The students then traced these onto the ceiling tiles and painted them in.

More 5th Grade Ceiling Tiles

Some self-portraits portrayed alter-egos.

Ceiling tiles installed in the school.

The 5th graders were extremely proud of their self-portraits, and brought their families and friends to see them. Many students have come back to visit the “mark” they have left for posterity on their elementary school.
