

Artist-in-Residence - New Hall Mural for Robert Frost Elementary

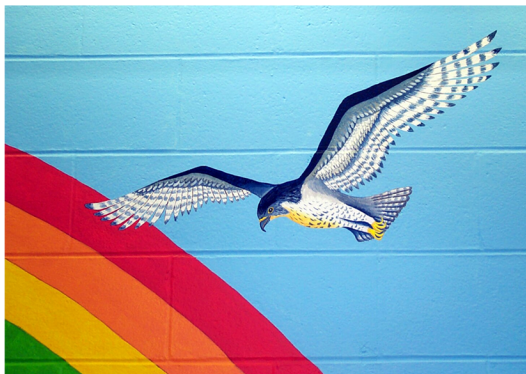

I worked with the PTA, principal, and Student Council to develop a new mural for the front hallway of Robert Frost. The goal was to create something bright to enhance student pride and school spirit. The design needed to incorporate the traditional Robert Frost symbols of the sun and rainbow with the new mascot, the falcon. I made a special blank design page for students to create their own drawings of what they would like to see on the wall. All these drawings were put up in the hallway and all students and staff voted for their favorite 3 designs. It was important to me that everyone would feel they had participated in the process. I then combined the best elements from the winning drawings to create the final mural.
